See it in action

Benefits

- Chainless – no troublesome feed chains is a key advantage for – Reliability, lower maintenance and quieter operation, the teasing action of the rotors uses feed more economically, because it is easier for the cattle as they can eat it because it is fluffed up. The Chainless X5000 can effectively feed out any bale type in both round or square. Chainless is a virtually silent feeding operation which means stock are more comfortable.
- The new rotor shape has better penetratration on tight bales and the shape cleans sticky bales better. The new Axial rotor centralizes the bale in the feeding chamber, so that there is less wastage. It has more grip on sloppy, rotor cut bales which makes feeding them out easier and more efficient. The larger bale chamber makes it possible to feed out a wider range of bales, and also makes using the X5000 trailed bale feeder very simple for operators of all skill ces the need for platform adjustment.
- The new Easy Clean Hypaflo wiper panel – The newly developed wiper panel that clears the hay from the rotors better. n for releasing the panel to clean out any hay.
- Total Control 2 Loading system – gives you total control over loading the bale. The simple, reliable and fool-proof singl stem is safer than other loading systems and allows unwrapping of the bale above the feed cradle, reducing waste. The Hustle perator decides not to load that bale. It also has more support area for soft or square bales. The X5000 square and round bale feeder has more leverage, stronger design and larger 1.5 tonne capacity.
- Loaded with time-saving and money-saving features such as: ORC Grips, Drawbar hose holder, biggest stub axles on the market, Loadial loading indica

Hello, thanks for visiting Hustler Farm Equipment! Can I help you in any way?

Specifications

- Bale sizes round: all sizes up to 5′ X 6′
- Bale sizes square: all sizes up to 8′ long
- Bale weight: up to 1500kg ea
- Unit weight: 1180kg
- Hydraulics required: 2 X double-acting, 30-60 litres/min, 2250-3000 psi
- Capacity: 2x bales (round or square)
- Tynes: 2x Forged high tensile
- Towing eye: Adjustable height, 50mm swiveling forged, 12t rated
- Axles: 6 Stud, 60mm Square
- Wheels: 13/55 R16
- Ground clearance: 443mm
- Loading: self-loading
- Size (L x W x H): 4467 x 2410 x 1669mm

Features

Axial rotor

The addition of a new Axial Rotor with centralising paddles keeps the bale pos the centre of the feeding chamber to minimise wastage and provide better gri bales.

What our customers are saying

Glenn Anderson, a beef farmer located in Northern Tasmania, and his family run a Gelbvieh & Murray Grey Stud. Read this story to see how they overcame feed shortages... Glenn Anderson, Tasmania (Australia) - Chainless X5000
