S855E/LS855E SHOVEL LOGGER

THE S855E

The S855E shovel logger is a quick, nimble and powerful carrier designed to improve the efficiency and productivity of the entire harvesting system.

THE LS855E

Equipped with Tigercat's leveling undercarriage, the LS855E is an excellent choice for steep slopes.

THE S855E SERIES IS A PURPOSE BUILT FOREST DUTY SHOVEL LOGGER.

The S855E series can be equipped with a grapple or the Tigercat 5195 directional felling head for felling and shovel logging with one machine.

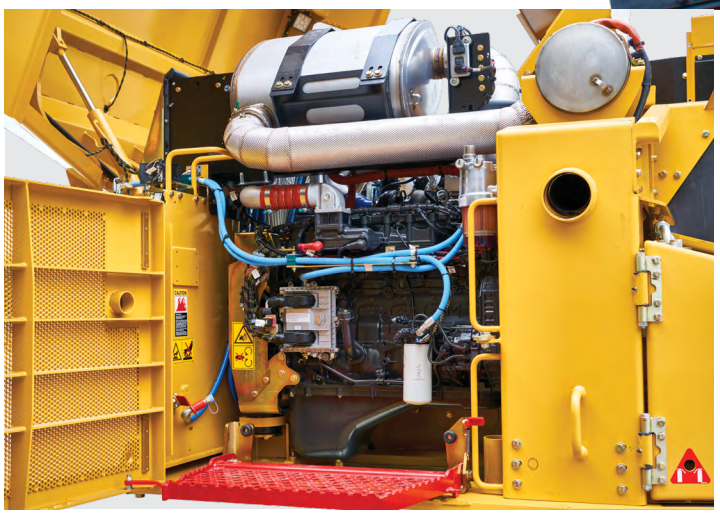

Tigercat®
Tough • Reliable • Productive

CLAMSHELL STYLE RETRACTING ROOF ENCLOSURE AND NEAT, COMPARTMENTALIZED COMPONENT ARRANGEMENT.

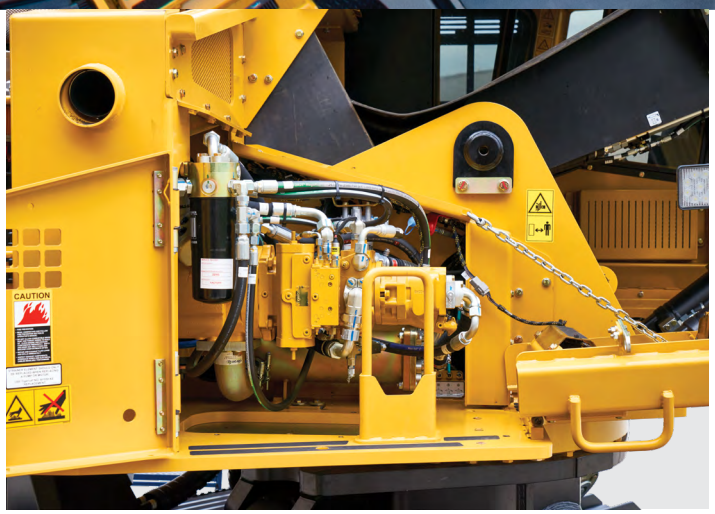

Large swing-out doors for clear access to both sides of the engine and all daily service points. Hydraulic components are compartmentalized, separating the engine from the hydraulic pumps and valves.

EFFICIENT, HIGH CAPACITY COOLING SYSTEM

Automatic variable fan speed for improved fuel efficiency and automatic reversing cycle to clean the heat exchangers.

Swing-out door with service platform to quickly and easily access the engine.

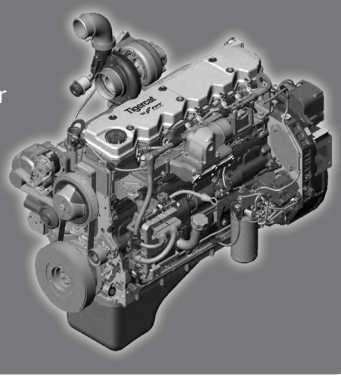

Quick and clear access to the hydraulic system. Separated from the main engine enclosure area.

TIGERCAT FPT ENGINE TECHNOLOGY

Tigercat FPT Tier 2 and Tier 4f engines offer quick load response, low operating costs and high power density, combined with excellent fuel economy.

TIGERCAT**POWER.**
TIGERCAT**SUPPORT.**

The second-generation common rail fuel injection system provides top performance in the most demanding applications.

Tigercat FPT Tier 4f emission technology is simple and reliable. The Tier 4f configuration meets emission standards without complex add-on components. The key is the patented selective catalyst reduction (SCR) after-treatment system.

Tigercat FPT engines offer improved reliability and lower long-term maintenance costs – the clear power choice for forestry and off-road industrial applications.

REDESIGNED OPERATOR'S STATION

- Clear view of the tracks with full-length front window
- Narrow side posts for improved visibility to each side
- Optimally positioned controls and large touch screen display
- Reduced noise levels
- Auxiliary input port, Bluetooth® audio, hands free calling and Sirius ready (North America only)
- Redesigned hinge geometry for easy close front door
- skyVIEW and rearVIEW camera equipped

HIGH SPEED, HIGH PERFORMANCE, HIGH EFFICIENCY.

Tigercat's patented ER® technology allows the machine operator to extend and retract the boom on a horizontal plane smoothly and quickly using a single joystick. But the benefit goes beyond reducing operator fatigue.

Key to ER technology is reduced energy consumption. The ER system transfers energy back and forth between the main and the stick boom functions, reducing the total energy required to move the boom system. This reduces demands for power, pump flow and system cooling. The result is increased productivity and reduced fuel consumption per unit of production.

ER® technology

ENERGY RECOVERY
EASY REACH

3 - MODE

EXTREME DUTY LEVELING SYSTEM

Field proven, millions of hours of operation. Long frames and wide stance for excellent stability. Thick steel plate, massive cylinders and tapered roller bearings. Unique patented geometry improves machine stability on sloping terrain.

TWIN SWING DRIVES

Powerful swing torque and reduced pinion loads for extended swing system life.

LIVE HEEL OR FELLER DIRECTOR BOOM OPTIONS

The Tigercat S855D series is versatile for felling, bunching and shovel logging. When equipped with a live heel and grapple, it is a nimble, agile shovel logger well suited to steep terrain and sensitive soil conditions.

Equipped with the Tigercat 5195 directional felling head, the machine is well suited to steep slope felling, bunching and shoveling. The combination is an asset in large timber, avoiding the additional time, travel and repositioning required to double cut oversize trees with a fixed wrist felling head. The feller director configuration allows the machine to fell and extract independently or fell and bunch for a skidder or yarder.

SPECIFICATIONS

Tigercat®

	S855E	LS855E
DIMENSIONS WITH STANDARD TRACK SHOE		
WIDTH	3 400 mm (134 in)	3 430 mm (135 in)
LENGTH less boom	5 380 mm (212 in)	5 280 mm (208 in)
HEIGHT less skylight	3 330 mm (130 in)	3 710 mm (146 in)
GROUND CLEARANCE	690 mm (27 in)	710 mm (28 in)
WEIGHT less attachment	27 600 kg (60,900 lb)	36 970 kg (81,500 lb)
TAIL SWING over side	1 445 mm (57 in)	1 360 mm (54 in)
POWER		
ENGINE Tier 4f	Tigercat FPT N67 Tier 4f	Tigercat FPT N67 Tier 4f
▸ RATED	210 kW (282 hp) @ 2,200 rpm	210 kW (282 hp) @ 2,200 rpm
▸ PEAK	210 kW (282 hp) @ 2,200 rpm	210 kW (282 hp) @ 2,200 rpm
ENGINE Tier 2	Tigercat FPT N67 Tier 2	Tigercat FPT N67 Tier 2
▸ RATED	205 kW (275 hp) @ 2,100 rpm	205 kW (275 hp) @ 2,100 rpm
